All her life, Sue has found solace and companionship with her horses. After a brush with cancer in her late thirties, Sue and her husband opted for a tree change. As a result, she was able to fulfil a long-held dream: to work with horses every day. Her horse training and compassion for others quickly turned into a business, Horses Helping Humans™ - giving people a chance to learn from these intelligent, soulful creatures, including Sunny, the horse with whom Sue has a special bond.

*Horses Who Heal* is the story of one woman's deep love for horses and the powerful life lessons they've taught her along the way. With Sunny always by her side, Sue's equine team are inspiring others on their own journey of healing, helping thousands of people - from juvenile offenders to company CEOs - discover the power of communication, using more than just words.

In 2016 she received the Honour of being appointed an Officer of the Order of Australia in recognition of her significant contribution to the prevention and treatment of youth mental health problems. Through her horses, Sue is able to engage with children and adults, and transform their lives! From stress and anxiety, to trust and bonding.

Using the strong, contrasting personalities of her four horses, Sue has helped children, adults and commercial clients reach their communication and leadership goals.

## HAPPY BIRTHDAY TO ALL MEMBERS BORN IN THE MONTH OF JULY

The two zodiac signs associated with the month of July are Cancer and Leo. People born from July 1st to July 22nd are members of the Cancer zodiac sign. A person born under Cancer can be identified by their emotional and intimate nature. For those born after July 22nd to July 31st, they are a part of the Leo zodiac sign. The Leo is one of the zodiac's most natural leaders, which may explain their desire to be the centre of attention.

## Lunch ONFIRE Greek Restaurant Wednesday 15th June

June's lunch was held at "On Fire", Albert Ave, Broadbeach on a beautiful, sunny, winter's day. The venue was relaxing, compact and comfortable. Parking was easy and nearby. As usual, conversation was freely flowing interspersed with deliveries of delicious, more than ample servings of Greek foods. Musical chairs was played by the usual suspects and the only mishap was a glass of "spilled ice". The staff seemed to know some of us which may account for the excellent service we enjoyed. The Gallant effort to deliver 20 odd meals at once was very well handled. Everyone who attended couldn't help but comment on the generosity of the meals, thank goodness for doggy bags.

## CHANGING THE WORLD ONE STORY AT A TIME

Carol Pearce NSA Broadbeach's Wordsmith

What is the world coming to? A young mother in court over a smack with a wooden spoon, which seemed to be utterly deserved by the young son who misused her credit card in a big way.! It would be funny, were it not so typical of the slant we are forcing on the actions of children - it is OK for you to do this, but for your mother to be annoyed and use a time honoured rap to say "NO", take her to court!

No wonder there are 12 years' and upwards teenagers stealing cars, using knives, ransacking homes, when any kind of punishment is forbidden because of our "Woke" ideas. Perhaps we used to be stern and judgemental when children did wrong. But what role are parents supposed to fulfil, when any kind of discipline seems to be regarded as child abuse? When small punishments were needed in years gone by, children accepted that they had done the wrong thing, but now the limits seem to have disappeared, and bad behaviour is treated with kid gloves. I am not suggesting that we encourage parents to use force and intimidation to get their message over to kids. But surely the time-honoured wooden spoon still has a small part to play, as those light taps on the backside were more ignominious than anything else.

---

There is such a lot of coverage in our news programmes at the moment about the prevalence of crime committed by very young gangs of criminals, and nothing seems to deter them. Punishments are only a slap on the wrist, and the joy of bragging about it, and being on camera - wow, how wonderful for their egos. In fact, perhaps the notoriety and horror following their actions is a great impetus for more and more of this behaviour. I am tempted to say that it is a war of kinds - not like a real war, but a war nevertheless against decent people and their values. Perhaps this quote by Oscar Wilde fits the bill, in a way. "As long as war is regarded as wicked, it will always have its fascination. When it is looked upon as vulgar, it will cease to be popular." These words are so relevant to our world of today, but perhaps "vulgar" is a bit dated, somehow! What about "naff" to describe gangs of youths marauding as miniature gangsters. And let us keep the word "vulgar" anyway, to describe the wars being started by despots so they can own a piece of land, like what is happening in The Ukraine at present. Well, if we can't laugh, we can only cry!

## Vivid Sydney 2022

This tour was for 4 days and 3 nights, it included accommodation at the View Hotel, air fares, most meals and all daily activities they were well organised and on time all the time. A tour coach and guide conducted us around the Sydney historical and scenic sites but of course the highlight was the Harbour Cruise and a meal to view the lights of Sydney.

The view of the harbour, from our hotel room with the Bridge and Luna Park in the foreground was to die for.

We highly recommend the tour by Trade travel, watch for it next year!

### **Introducing Challenger's market-linked lifetime annuity**

There's no one-size-fits-all approach to lifetime income. While many retirees might like the safety and security of a guaranteed income stream, others may prefer to stay invested in markets to have the potential to grow their income over time – while accepting some downside risk.

Challenger's market-linked lifetime annuities provide you (and your spouse if you choose) with monthly income for life that has the potential to increase over time, however, payments are less predictable because they move up or down based on the performance of the chosen market index.

There is a choice of five indexation payment options across both defensive and growth asset allocations, and you have the flexibility to switch the index option annually at no cost.<sup>1</sup>

### **Squeeze more out of your retirement**

Challenger's market-linked lifetime annuities are not an all or nothing proposition. They have been created to complement other retirement investments and sources of income, such as account-based pensions and the Age Pension.

Investing in a lifetime annuity may also help boost your Age Pension if **you are** eligible – and stretch your retirement savings.<sup>2</sup>

Our lifetime annuities have no investment management fees and therefore may result in considerable savings over the duration of your retirement.

With a Challenger market-linked annuity you can relax and enjoy retirement, knowing you'll have income for life.

### **We're here to help**
