**What do you call a Policeman in bed? An undercover cop....** But that is exactly what it would appear Andy's job was. Back in 1969 in New Zealand, he got his first assignment to go undercover, with a princely expense allowance of \$50 and a direct phone number to the head of the Drug Squad, to crack a major drug importing gang. But we are getting ahead of the story: Andy, at the time a uniformed policeman, had a problem to go undercover: he had short hair which, in the late sixties and early seventies depicted you to be either Army or Police. Unless... Andy gave himself out to have deserted from the British Army, then hiked from his native Scotland via Singapore. Singapore, under Lee Kuan Yew, had no tolerance for long hair. And it worked! Adopting the name of Adrian McKellar (always ensure your first name initial is the same as your real name!), he had found himself at the Waterloo Hotel, where he managed to attract serious interest from a barmaid, who worked at the pub that was suspected to be a major hub of the trade. That then led to attracting the head lady of the organisation named Jennifer Ann Wilkinson, who "appropriated" him entirely for herself.. Nicknamed 'The Hiker', his initial deployment within the gang was to shoplift "to order". Yup, place your order for whatever you want, and Andy's gang would procure it.

**HAPPY BIRTHDAY TO ALL MEMBERS BORN IN  
THE MONTH OF NOVEMBER**

The two signs associated with the month of November are Scorpio and Sagittarius. People born from November 1st to November 22nd are members of the Scorpio sign. A Scorpio can be identified by their success-driven and resilient nature. For those born from November 23rd to November 30th, they are members of the Sagittarius zodiac sign. As the Sagittarius often has an appreciation for life's finer things, members of the sign can be identified by their animated and hardworking nature.

**JOKE CORNER,**

**THE ONES YOU CAN TELL YOUR GRANDCHILDREN**

Paddy, "Mick, how did you get on at the faith healer meeting last night?"

Mick "He was absolute rubbish. Even the fella in the wheelchair got up and walked out !

My Wife isn't talking to me, she said I ruined her birthday. I'm not sure how... I didn't even know it was her birthday.

I was so happy and content as I watched the wife drift off last night. Her dinghy's got a puncture and she's a poor swimmer.

A man tells his Rabbi, "I have a strong desire to live until eternity. What should I do?" "Get married" said the Rabbi. "It's that simple? Would that allow me to live forever?" He said. The Rabbi replied, "No but the desire will disappear."

As me and the wife headed off on a romantic holiday we talked about what kinky things we'd like to do to each other. She said, "I've always wanted to be handcuffed." So I planted a kilo of coke in her suitcase.

Cyber Security  
Centre

Cybercrime is a billion dollar problem. Cyber security incidents cost Australian businesses up to \$29 billion each year, with almost one in three Australian adults impacted by cybercrime in 2018.

These figures show the significant impact on Australians – figures which we need to reverse!

This year's campaign, which ran from Monday 7 to Sunday 13 October, saw the continuation of 'Reverse the Threat', a bold initiative to bring cybercrime out of the shadows and put cyber security in the national spotlight. Take control of your online identity

Every day cybercriminals steal the online identities of people just like you. It doesn't matter if you're young or old, whether you are male or female, or where you live, cybercriminals look to take advantage of people who make it easy for them to steal from.

Don't wait for a cybercriminal to steal your identity – take control of your online identity with a few simple steps:

- **Setting your social media to private.** Cybercriminals can piece together info from your social media and all over the internet to steal your identity. Check the privacy settings on your devices, apps and social media so that you're only sharing information with people you know. [Complete your privacy check-up.](#)
- **Using a different password for each of your important online accounts.** Passwords are the first line of defence against cybercriminals. If you're using the same password on multiple accounts, by guessing one of your passwords a cybercriminal could access all of your accounts. [Make a pledge](#) for better password security.
- **Never provide your details via a link in a message.** Scam messages are one of the most common ways cybercriminals try to steal your information online. Think you know how to spot a scam? Put your skills to the test – [take the quiz.](#)

It's important to remember that these are actions that should be taken year round and not just during Stay Smart Online Week to give yourself the best protection against cybercriminals.
