HAPPY BIRTHDAY TO ALL MEMBERS BORN IN THE MONTH OF FEBRUARY

The two zodiac signs associated with February are Aquarius and Pisces. Those born from February 1st to February 18th are members of the Aquarius zodiac signs. Members of the Aquarius can be identified by their unique style and their flowing personalities. For people born February 19th to February 28th/29th, they are born under the influence of the Pisces sign. The Pisces is a dreamer, but luckily their determination can turn far-off dreams to tangible realities.

You **February** babies might share a **birthday** with one of these well-known people: Christiano (**February** 16), Joseph Gordon-Levitt (**February** 17), Rihanna (**February** 20) or Drew Barrymore (**February** 22).

Changing the World One story at a Time

This month
The future says
goodbye to cash.

Perhaps when our banking system finally decides that face to face discussion with their customers is a thing of the past, and cash and cheques become obsolete, the Australian Government will have to revise its laws about Discrimination. At present the law states that it is illegal to discriminate "against some in areas of public life," including amongst other cases" work, education, accommodation", and "When supplying goods and services." The guidelines also state that "Discrimination also occurs when an unreasonable policy or condition which applies across the board impacts more on a person or group because of a certain characteristic" (e.g. their race, sex, impairment) and also includes "age". How then is it so easy for our absolutely necessary banking system to be about to cancel anything that makes the older persons in the community independent members of society, by closing down so many branches, getting rid of cash and cheques – and forcing those without internet access to depend on their children or others to look after their finances? In addition to older people, there are still so many underprivileged people in our society, and the internet is unavailable to them, or access to banking of any sort due to distances to be travelled, as their local banks close down. Where has their freedom gone? Perhaps at least one bank must be forced by law to fulfil the roles that were considered part of life until now, and recreate equality for the generation being denied it in today's world.
