

Robina National Seniors went on a train trip to Brisbane on Tuesday 27th August taking the train from Varsity & Nerang Stations. We met up at Collectors Cafe at the Qld Museum & had morning tea. There was 14 of us & we were seeing a comprehensive collection of over 250 historically significant artefacts from the United States & Russia space programs.

The exhibition was wonderful & very much enjoyed by all. There was movies high fidelity replicas & scale models. We saw all this & more & were very pleased we had gone.

Next we decided to go to an old Pub around the corner for lunch & most of us had pizzas or burgers which were half priced if we bought a drink.

Again we were happy. Some of our group went back after lunch & some of us walked along the River to the next train station & then went back to Gold Coast.
