## Managing your card

### How is the interest calculated on my National Seniors Australia Card?

Interest is calculated on the daily balance and charged monthly.

### What will my repayments be on my credit card?

Minimum payments are designed to give you some short-term payment flexibility, but it is unwise to rely on making minimum payments as an ongoing way of managing credit card debt. After all, if you only make the minimum payment every month, it could take years to pay off your credit card balance.

The minimum payment specified on your monthly National Seniors Australia Credit Card statement is the minimum amount you must pay before the due date, if it's not possible for you to pay off any more.

Repayments are to be made by the due date shown on your National Seniors Australia Credit Card statement.

### How can I make repayments on my National Seniors Australia Credit Card?

There are a range of ways you can make repayments on your National Seniors Australia Credit Card.

You can make repayments using BPAY. Simply use the **BPAY biller code 118760** and customer reference number (this is a 9 digit number you can find on your National Seniors Australia Credit Card statement).

Alternatively, you can arrange to make your card repayments by external credit transfer from another account held at another financial institution using the BSB 512 170 and your account number (not your member number) found on your National Seniors Australia Credit Card statement.

### How to keep my National Seniors Australia Credit Card purchases interest free?

To avoid interest, you need to repay your outstanding National Seniors Australia card balance in full by the payment due date each month.

If you don't pay your full closing balance by the payment due date (for example, you pay only the minimum payment) you will lose your interest-free period.

Any balance left at the end of your statement period will begin to accrue interest and any new purchases you make once you have an outstanding balance will not be interest free.

### My National Seniors Australia Credit Card will expire at the end of this month. How do I renew my card?

You can continue to use your existing card until the last day of the month stated e.g. if the expiry date is 09/16 the card will expire at the end of September 2016.

A renewal card will automatically be issued during the expiry month and your PIN will remain the same.

If you do not receive your new card by the 21st of the month in which your card expires, please call us on 1300 153 320.
